PROFESSIONAL SUMMARY

Software Test Automation Engineer with hands-on experience building production-grade E2E test frameworks using Playwright, Cucumber BDD, and TypeScript. ISTQB CTFL certified with 10+ years in high-stakes operations at Sea-Tac International Airport — bringing exceptional attention to detail, structured problem-solving, and a quality-first mindset to software testing and quality assurance.

TECHNICAL SKILLS

Test Automation: Playwright • Cucumber BDD • Selenium • TypeScript • Jenkins CI/CD • Faker.js • Page Object Model

Testing Practices: BDD • Regression Testing • Manual Testing • Test Case Design • Defect Management

Development: React • Node.js • Express • MongoDB • JavaScript • REST APIs • Git

Tools: Postman • Jira • GitHub • Agile/Scrum

EXPERIENCE

Software Test Automation Engineer

Self-employed | Jan 2024 – Present | Seattle, WA

- Built production-grade E2E test automation framework using Playwright, Cucumber BDD, and TypeScript
- Automated full user journey — registration through Stripe payment — 29 steps passing in under 2 minutes
- Implemented Page Object Model architecture for scalable, maintainable test design
- Set up Jenkins CI/CD pipeline running automated tests daily with Cucumber HTML reporting
- Built full-stack MERN food delivery app with Stripe payment integration and deployed to production
- Demo: <https://youtu.be/S0vs8daK1rw> | GitHub: github.com/Oumeradem/food-delivery-tests

Passenger Logistics Facilitator

Prospect Airport Services, Inc. | Sep 2021 – Present | Seattle, WA

- Audited and verified high-volume passenger data with 100% accuracy, ensuring correct routing
- Optimized complex workflows and resolved real-time operational issues in high-pressure environment
- Maintained strict compliance with FAA and ADA regulations, ensuring consistent and safe operations
- Coordinated with cross-functional teams to improve efficiency and maintain on-time performance

Logistics & Mobility Specialist

Self-employed | Oct 2018 – Nov 2021 | Seattle, WA

- Managed high-volume operations with 98% on-time completion rate
 - Applied structured problem-solving to handle complex, time-sensitive situations
 - Delivered consistent, high-quality service with attention to detail
-
